To

**The Honourable Chief Minister
Government of Haryana
Chandigarh**

Subject: - To Implement the Medical Facility for employees of Government aided colleges in Haryana

Sir

Most respectfully we wish to submit that under your farsighted and perceptive Chief Ministership, the state of Haryana beholds a strong, concrete and visionary future. The expectations of the people are soaring high owing to your honest and committed efforts. Your endeavors in every sphere especially towards the wellbeing and welfare of every citizen of Haryana are extremely laudable. The teaching fraternity associated with higher education has also deposed their faith in your potential and perspectives. The whole teaching fraternity is committed to further the cause of higher education in Haryana state.

Sir, yet in spite of your all around concern for providing quality and better higher education in the state, I wish to draw your kind attention to a very grave and legitimate problem being faced by the teachers of Government aided colleges in Haryana - the problem of unavailability of any Health or Medical Security. Sir, no medical facility or health protecting scheme is provided to the teachers of Government aided colleges in the state of Haryana and consequently they and their families always remain insecure and apprehensive. They work under severe pressure owing to lack of a proper medical security and it continuously lingers on in their mind thus affecting their potential and competence in teaching.

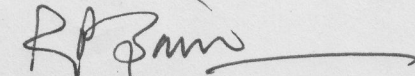

With hope and expectations, HCTA and all its teachers of Aided Colleges of Haryana urge that a Comprehensive Medical facility may also be commenced for the teachers working in Government aided colleges without any delay. It will exonerate them

and their family of the anxiety and agony that afflicts them owing to lack of an appropriate health scheme. It will be a righteous and noble cause also on part of your Government.

HCTA urge and implore you earnestly that a Comprehensive Medical Facility/ Scheme may kindly be provided and implemented for the teachers of Government aided colleges, without any further delay. It will go a long way to the cause and betterment of higher education in the state.

With regards

Yours faithfully
